

Vivo Biosciences Inc.

Accelerating Preclinical Research & Drug Discovery

Through 3D Human Bioassay Technology

Advanced 3D HuBiogel™ Assay Platform

- Real-time analysis of Tumor growth, Hypoxia & Angiogenesis
- Rapidly identify preclinical drug candidates or targets
- In vivo-like data endpoints for better Go/No-go decisions

- **Robust, cost-efficient preclinical DD pipeline**
- **Reducing the use/number of xenograft animal studies**
- **Valuable drug efficacy/toxicity data prior to clinical trials**
- **Patient-based therapy response & chemo profiling**

Products: HuBiogel™ Culture Kits
Services: 3D HuBiogel™ Assay Systems
