MorphoScan™

New Low-Cost Live Cell Imaging & Analysis System

Automatic Image Acquisition

Live Cell Image Analysis

SQL Compliant Database

Remote Client Viewers

3D Imaging

Barcode Tracking

Report Generation

- **Automatically image, analyze, share, and store live cell experiments**
- **MorphoScan is a user-friendly powerful and affordable system**

New system includes: High quality microscope, Automatic x-y translation stage, Automatic z-focus drive, Barcode printer/scanner, Digital camera, Integrated acquisition, analysis, and archiving software, and Dell workstation
